

Three Reasons Why Case Managers Should Choose Primary Home Care for Patients in the Mid-Michigan Area

1. Guaranteed Coverage

Primary Home Care understands the importance of covering all the shifts for which we are engaged. Primary enforces a Zero-Tolerance Policy towards unfilled shifts and caregivers who call off at the last minute. Our after-hours scheduling and large caregiver roster means we can quickly fill shifts if the need arises. Simply put, this means that all shifts are filled, all the time.

2. Regular Supervisory Visits

Primary provides monthly supervision of insurance cases and catastrophically injured patients. The supervisory visit allows the home care patient, and their family, opportunities to discuss issues or concerns they may have with their care or caregivers. It also allows Primary's nursing staff an opportunity to assess patients' changing needs, particularly those recovering from injuries.

3. Ongoing Communication

Primary understands how important regular communication is to a case manager. Our intake procedure with case managers involves a few questions on specific requests or needs for communication. We work diligently to keep you informed of any changes, issues or concerns we observe when we are with your patients.

Primary Home Care can provide home services in the following areas

Clare, Gladwin, Gratiot,
Ionia, Isabella, and Montcalm

Arenac, Saginaw,
Bay and Midland

Please call us and ask for Shelley Peek or email us at info@primaryhomecare.com and we will send you our complete information packet including current rates.
